

# Embedded Linux Engineer

Are you looking for an opportunity to work as embedded Linux engineer for a well-established yet still growing company developing innovations for both the high tech as well as automotive industry?

## Samenvatting

- Vacature nummer: PUB206439
- Markt: Industrie
- Branche: High Tech
- Expertisegebied: Embedded Software
- Uren per week: 40
- Opleidingsniveau: HBO
- Sluitingsdatum: maandag 20 mei 2019

## De functie

We are looking for both beginner and experienced embedded software developers with strong skills in embedded Linux to join a skilled team of system developers working on one of a kind projects in the agriculture systems and agricultural vehicles. This is a long term job at our clients organization. First

contract will be made via Brunel. You will work on the development and maintenance of embedded Linux software for agricultural equipment. Your task is to define detailed production specifications based upon customer requests. You will support and advise customers in the area of mechatronics solutions. You will also support for on-site verification of soft- and hardware and the production and technical service department during product introduction.

## Over jou

- Bachelor's degree or higher in Electronics, Technical Computer Science or (Technical) Informatics
- Experience and excellent coding skills in (embedded) C/C++/C# language
- Knowledge of Linux application development
- Ability to write effective and reusable code according to best practices
- Experience with software design of embedded systems in real-time applications
- Knowledge of CAN bus systems and communication protocols is an asset
- Good command of English in word and writing

## Wat wij bieden

Being intermediated by Brunel means that you are contracted by Brunel. Not only you will have a contract, you will as well be assured of a great career! Our primary and secondary terms of work are excellent. A few examples are price reductions at CZ Health Insurance, bonus opportunities and standard 26 days annual leave.
