

Production Engineer

Make the future now! Do you want to contribute in creating complex linear actuators in the dynamic, high-tech development and production environment? Apply today to join Motion, the new ASML department, located in Oirschot.

Samenvatting

- Vacature nummer: PUB208648
- Markt: Industrie
- Branche: High Tech
- Expertisegebied: Operations & Onderhoud
- Uren per week: 40
- Opleidingsniveau: HBO
- Sluitingsdatum: donderdag 6 juni 2019

De functie

Your job mission is to design, maintain, adapt to changed output requirements and to optimize production processes as well as to develop and apply methods of measuring the performance of the production process.

In this function you lay down operating instructions, process flow charts, routings, process parameters and indicators. You will analyse production processes, point out structural problems and bottlenecks, work out suggestions for improvements and initiate their implementation, often in close cooperation with the surrounded departments as D&E, production Motion and IE. You bring your knowledge to bear on (new) product development projects, in order to foresee production problems in the design phase and in order to improve the reparability of the product and test design. Also you deliver technical support for the production process and prevent technical disturbances from repeating. As holder of this position you report to the team leader Production Engineering Motion, who has a close connection to the PS organization within the Twinscan factory.

Over jou

- Higher Technical College (hbo) Mechanical/ Mechatronics/ Electronics/ Applied Physics
- Experience in a production environment with hightech products and complex production processes
- Experience in the field of Technical Production Engineering and quality methodology such as statistical process control and FMEA is an advantage
- Experience in the field of (semi-) automated production lines and control is an advantage
- Broad technical and business knowledge
- Good communication skills
- Very active, plenty of initiative
- Focused on quality, continuous improvement, good social and communication skills
- Adequate English language skills in speech and writing

Wat wij bieden

Being intermediated by Brunel means that you are contracted by Brunel. Not only will you have a contract, you will also be assured of a great career! Our primary and secondary terms of work are excellent. A few examples are price reductions at CZ Health Insurance, bonus opportunities and standard 26 days off. Brunel Engineering intermediates both junior and senior engineers within the industry for over 30 years now. Our clients vary from multinationals to local companies.
