- Proven track record in development methodologies like Agile/Scrum/V-Model
- Set of strong technical skills in HTML5, CSS, TypeScript, JavaScript, Responsive layouts, Performance optimizations
- Experience in Angular and/or React is required
- Experience in Java for back-ends technology in the cloud is an advantage

Wat wij bieden

Brunel supports your international career: since you are living in another country and probably don't immediately know how to find your way in the Netherlands, Brunel can help you with this. As an international company, we know better than anyone what it is like to move to a foreign country to work. This is why we can arrange the most important things - including those that don't involve your job - for you and your family so that you can fully focus on your career in the Netherlands. We will support you by housing, administrative matters and health insurance, but also by education and other facilities to make the international career as pleasant as possible.
